PATIENT MEDICATION LIST

APRIL 2010

This formulary was current at time of printing but is subject to change. A searchable version of this formulary is available at www.bcbsne.com.

BLUE CROSS AND BLUE SHIELD OF NEBRASKA

DRUG FORMULARY

This Patient Medication List, also called a formulary, is a list of medications included in most prescription drug benefits. **Coverage of formulary and non-formulary (NF) drugs is subject to your prescription benefit plan design.**

A Pharmacy and Therapeutics Committee reviewed and approved this medication list. All medications on the list were selected after consideration of safety, effectiveness, uniqueness and cost. The Committee includes practicing physicians and pharmacists dedicated to providing patients with high-quality, cost-effective drug therapy. The Committee meets periodically to consider updates to the formulary.

Medications listed in this booklet are formulary drugs. Drugs not listed are NF.

HOW TO USE THIS BOOKLET

Use the Table of Contents on page 4 to locate:

- An alphabetical list of all drugs on the Blue Cross and Blue Shield of Nebraska Drug Formulary
- A specific drug category

At your health care professional's office:

- Show this booklet to your health care professional each time a prescription is written
- Ask your health care professional if there are appropriate generic drugs to treat your condition

At the pharmacy:

- Bring this booklet to the pharmacy each time you have a prescription filled
- Ask the pharmacist to fill your prescriptions with generic drugs, when appropriate

KEY

caps = capsules

chew tabs = chewable tablets

conc = concentrate

crm = cream

DR = delayed-release

ER = extended-release

inhal = inhalation

inj = injection

IR = immediate-release

liq = liquid

lotn = lotion

NF = non-formulary

oint = ointment

ODT = orally disintegrating tabs

SL = sublingual

soln = solution

supp = suppositories

susp = suspension

tabs = tablets

vag = vaginal

A NOTE ABOUT FORMULARY DRUGS

- Generic drugs, such as amoxicillin, are listed in lower case type. In the drug categories section beginning on page 17, the generic drugs column is shaded in blue
- Brand drugs, such as LIPITOR, are listed in capital letters

Generic drugs are as safe and effective as their brand counterparts, and generally have a lower copay or co-insurance than brand drugs. To encourage the use of generic drugs, brand formulary drugs usually move to non-formulary (NF) status after a generic version becomes available.

Formulary drugs are subject to annual review. Drug additions/removals may occur quarterly. However, the formulary may be updated at any time without notice.

MAXIMUM MONTHLY QUANTITY MEDICATIONS

Some medications may have a maximum monthly quantity. They are indicated by (*) following the product name. A pre-authorization/exception process has been established.

SPECIALTY DRUGS

Some Blue Cross and Blue Shield of Nebraska groups offer specific benefits for specialty drug products. Please refer to your Certificate of Coverage and/or Schedule of Benefits to determine the specific quantities allowed under your group's benefit. Specialty drug products on the formulary are indicated by (**Specialty**) following the product name. Specialty products

are typically injectable drugs that can be self administered by a patient or family member and are used to treat serious or chronic medical conditions such as multiple sclerosis, hemophilia, hepatitis and rheumatoid arthritis.

FOR MORE INFORMATION

To access a searchable version of the Blue Cross and Blue Shield of Nebraska Drug formulary, visit our web site at **www.bcbsne.com**. If you have questions about your prescription benefit or how to use this booklet, please call the number on the back of your member ID card.

The list of drugs shown below includes selected oral and injectable cancer drugs on the formulary. However, all generic and most brand cancer drugs are on the formulary. Usually, brand drugs are on the formulary until a generic version becomes available and has been added to the formulary. Typically, after the generic has been added, the corresponding brand is removed from the formulary. An entire list of generic and brand cancer drugs on formulary is found in the alphabetical index on pages 5–16.
